Marc addressed the lift station alarm at the cemetery. Kurt took care of the issue. Kurt and Mike have been checking the water line valves. They discovered a few that were only half open. They discovered a valve on the south side of the railroad tracks that was completely shut off. Turning these valves on and opening them all the way has made more PSI in Baker Farms. Rocky asked about part time employees going over in their hours. Bridget explained that the employees are diligent in keeping track of their hours to ensure there is no overage.

Adjourn:

Rocky adjourned the meeting.
